

State Lands Conceptual Plans Database
CAAG
July, 2009

The CAAG State Lands database was created by CAAG using State Lands Conceptual Plans data information provided by the Arizona State Land Department. The database is updated annually and is current as of July 2009. All data is collected and reviewed by each CAAG member agency. The database is maintained using Arc GIS and information from the State Land Department.

This database does not represent a legal survey and is intended for general planning purposes only.
